

Tractor-Mounted Post Hole Digger with Hydraulic Auger

This heavy-duty post hole digger is designed for efficient soil drilling. It is compatible with standard tractor three-point hitches and features a hardened steel auger.

Overview

Professional Hydraulic Post Hole Digger

This heavy-duty, tractor-mounted post hole digger is engineered for efficient and precise soil drilling in demanding agricultural environments. Featuring a robust hydraulic system, it ensures controlled auger operation for consistent performance. The hardened steel construction provides excellent durability and soil penetration, making it an ideal solution for fencing, planting, and other essential agricultural tasks.

Technical Specifications

Attachment System	Standard 3-point hitch
Material	Hardened steel
Operation Mechanism	Hydraulic

Applications

Primary Applications	Fencing, Planting, Soil Drilling
