Product Overview

Professional Soil Cultivation Solution

This heavy-duty rotary tiller is engineered for high-performance soil preparation and cultivation across diverse agricultural landscapes. Featuring a robust frame and precision-arranged blades, it excels at thorough soil pulverization, weed control, and seedbed preparation. The integrated three-point hitch system ensures seamless compatibility and ease of attachment to standard tractors.

Technical Specifications

Core Features

- Adjustable tilling depth
- Robust frame construction
- Multiple blade configuration for thorough mixing
- High-durability build

Attachment System

Three-point hitch

Applications

Seedbed Preparation, Weed Control, Fertilizer Incorporation, Landscaping
