

Tractor-Mounted Snow Removal Auger

This tractor-mounted snow removal auger is designed for efficient material handling. It features a robust frame and horizontally-positioned auger with black blades, connecting to tractors for effective snow removal and similar tasks.

Overview

High-Performance Snow Removal

This tractor-mounted snow removal auger is engineered for efficient material handling and clearing in demanding agricultural environments. Featuring a robust metal construction and a powerful central shaft-driven design, it provides reliable performance for heavy-duty snow removal tasks. Its versatile mounting system ensures compatibility with standard agricultural tractors, making it an essential attachment for winter maintenance.

Technical Specifications

Color

Red • Black

Attachment Type

Tractor-Mounted Snow Removal Auger

Build Material

Painted Metal

Design Features

Horizontal Auger, Central Shaft Drive, Robust Frame

Compatibility

Standard Agricultural Tractors
