Product Overview

Professional Tractor Wiper Solution

This complete tractor windshield wiper system is engineered for durability and reliable performance in demanding field environments. Designed for seamless installation, the assembly features a robust motor housing, high-strength metal arms, and high-quality rubber blades to ensure optimal visibility. It serves as an ideal replacement for worn or damaged components, providing a long service life for agricultural machinery.

Technical Specifications

Included Components

- Robust wiper motor with black housing
- Durable metal wiper arm
- High-quality rubber wiper blade
- Integrated mounting hardware
- Electrical connection assembly

Construction Materials

Heavy-duty metal, Durable rubber, Weather-resistant housing

Product Features

Key Features

Long service life • Easy installation • All-weather durability • High compatibility
