Product Overview

Versatile Barrier Solution

The Traffic Cone Topper with Retractable Belt offers an efficient, portable method for cordoning off hazardous or restricted areas. Designed to fit securely onto standard traffic cones, this unit enables rapid deployment of temporary barriers in construction, maintenance, and engineering environments. Its 4-way connection capability allows for flexible configurations to suit various site requirements.

Key Features

Ideal Applications	Construction Sites, Roadside Maintenance, Engineering Projects, Temporary Restricted Access
Connection Type	4-side connectable

Design & Build

Color

Yellow • Black

Design Features

- Retractable belt mechanism
- Cylindrical body for secure cone attachment
- Black rubberized grip
- Integrated belt clip

Material

Durable plastic
