

Trailer Coupler Head for 60mm Drawbar

This trailer coupler head is designed for use with a 60mm drawbar. It provides a secure and reliable connection between a trailer and a tow vehicle.

Product Overview

Reliable Trailer Connection

This E-Approved square trailer coupler head is engineered for secure and reliable towing performance. Designed specifically for 60mm square drawbars, it ensures enhanced stability and optimal load distribution during transit. The unit features a robust locking mechanism and is built from durable materials to withstand rigorous use, making it an essential component for safe trailer operation.
