

Trailer Coupler Lock

This coupler lock is designed to prevent trailer theft. It is constructed from heavy-duty, yellow-painted metal and includes a chrome-plated, U-shaped shackle.

Product Overview

Universal Trailer Security Solution

This robust trailer coupler lock is designed to provide reliable protection against unauthorized trailer towing and theft. Featuring a durable construction that is resistant to rust and corrosion, it provides long-lasting security in various weather conditions. Its versatile design accommodates multiple coupler sizes, making it a flexible solution for different trailer types.
