Product Overview

The S70HCS trailer-type genset, designed for silent operation and outdoor mobility.

Mobile Power Solution

This trailer-mounted generator set is engineered for high mobility and reliability in demanding outdoor environments. It features a fully-closed, sound-reduced enclosure that offers excellent noise attenuation and protection against the elements. Designed according to road traffic safety standards, it is an ideal solution for construction sites, infrastructure projects, and emergency backup power applications.

Technical Specifications

Technical Parameters

Parameter	Value
Model	S70HCS
Rated Voltage	400 V
Engine Model	4BTA3.9-G2
Alternator	UCI224F
Speed	1500 r/min
Weight	1500 kg

Features & Compliance

Safety and Environmental Features	Road Traffic Safety Standard Compliant, Low Emissions, Rain-Proof, Dust-Proof, Battery Isolator Switch, Fire Retardant Sound-Absorbing Lining
Noise Control	65dB(A) at 7 meters
