

# Translucent Green USB Flash Drive

This high-speed USB flash drive has a crystal-like translucent green casing. It offers reliable data storage and transfer and features a durable design.

## Product Overview

### Innovative Crystal Design

This translucent green USB flash drive combines cultural aesthetic design with modern technology. Featuring a unique 3D inside-carving process, the drive offers a striking crystal lighting effect that sets it apart from standard storage devices. It is engineered for efficiency with a low-power, environmentally conscious design.

## Technical Specifications

### Operating Voltage

**5 V DC**

Operating Voltage

### Storage Capacity

128 GB

### Interface

USB 2.0

### Compliance and Standards

RoHS, Energy Efficient

## Design and Aesthetics

### Design Highlights

- Translucent green crystal casing
- 3D inside-carving process
- Transparent lighting effects
- Slim and graceful profile
