

Transparent Film Overwrapping Machine

This overwrapping machine is designed for wrapping products with transparent film, providing a tight and aesthetically pleasing package. It utilizes a precise film feeding and sealing mechanism to ensure consistent wrapping quality.

Overview

Professional Overwrapping Solution

This three-dimensional transparent film overwrapping machine is engineered for precision packaging, utilizing BOPP or PVC film to create professional, tight box-shaped packages. Designed for versatility, it is an essential asset for industries ranging from pharmaceuticals and cosmetics to food and stationery. The machine combines durable stainless steel construction with automated film tension control to ensure high-quality, consistent results for both single and multi-box configurations.

Performance Metrics

Production Capacity

20 bags/min

Max Production Speed

Technical Specifications

Power Requirements	220V / 50Hz AC
Power Consumption	0.75 KW
Compatible Film Materials	BOPP, PVC, OPP
Model Number	BT-400 C

Packaging Capabilities

Allowed Package Dimensions (mm)

Dimension	Range (mm)
Length	10 - 300
Width	50 - 200
Height	20 - 80

Applications

Compatible Industries

- Cigarettes
- Pharmaceuticals
- Health Care Products
- Food & Beverage
- Cosmetics
- Stationery
- Tape
- CDs
