

Transparent Film Overwrapping Machine

This three-dimensional transparent film packaging machine overwraps products with transparent film, providing a tamper-evident seal and enhancing product appearance. It features a robust mechanical design for reliable operation and precise film application.

Product Overview

High-Efficiency 3D Transparent Film Overwrapper

The BT-350 is a professional 3D transparent film packaging machine designed to provide precise, high-quality overwrapping for a wide range of industries including cosmetics, pharmaceuticals, food, and electronics. Using BOPP or PVC film, it creates a clean, tamper-evident seal that mimics the professional appearance of cigarette packaging. The system is engineered for versatility and reliability, offering adjustable parameters to accommodate various box dimensions.

Key Performance Metrics

Operational Capabilities

30 packet/min

Max Production Capacity

6.5 KW

Power Consumption

0.6 Mpa

Work Pressure

Technical Specifications

Supported Packing Sizes

Dimension	Range (mm)
Length	50-350
Width	50-220
Height	10-90

Compatible Film Materials BOPP film, PVC film, OPP film

Electrical Requirements AC380V 50 HZ

Application Suitability

Industry Compatibility

- Cigarettes
- Drugs & Pharmaceuticals
- Health care products
- Food industry
- Daily cosmetics
- Stationery
- Tape
- CD/Media
