

Transparent Hinged Light Panel Box

Transparent plastic light box designed to hold and protect light panels or similar lighting components. It features a hinged design for easy access and secure closure.

Product Overview

Transparent Hinged Light Panel Box

This transparent plastic light box is specifically engineered to securely hold and protect light panels and similar lighting components. Featuring a durable hinged design, it provides easy access for maintenance while ensuring a secure closure for storage or transport. Its clear construction is optimized for maximum light transmission, making it an ideal solution for displaying or protecting sensitive lighting elements.

Technical Specifications
