Product Overview

Premium TPU Paint Protection Film

This high-performance Thermoplastic Polyurethane (TPU) film is engineered to provide an invisible, durable shield for automotive paint surfaces. Designed for both full vehicle wraps and targeted high-impact areas, it effectively guards against scratches, stone chips, stains, and environmental damage. With advanced self-healing capabilities and superior optical clarity, this film maintains the vehicle's aesthetic appeal while preserving original paint integrity and resale value.

Material & Performance

Optical Quality

Super Clear • High Gloss Finish

Material Composition

Thermoplastic Polyurethane (TPU)

Key Performance Features

Self-healing, Anti-yellowing, High Gloss, UV Resistant, Wear Resistant

Application & Usage

Recommended Application Areas

- Full vehicle wraps
- Hoods
- Fenders
- Bumpers
- Mirrors

Application Method

Wet installation

Removal

Yes
