

Triangular Oscillating Multi-Tool Sanding Pad

Triangular sanding pad designed for oscillating multi-tools. It features a hook and loop fastening system for quick abrasive paper changes.

Product Overview

Professional Triangular Sanding Solution

This triangular sanding pad is specifically engineered for use with oscillating multi-tools, providing precision for intricate sanding tasks. Designed for durability and efficiency, the pad allows for rapid material removal in tight corners and along edges. Its quick-change hook and loop system ensures minimal downtime between abrasive swaps, keeping your workflow productive.
