

Triangular Sanding Sheet

Triangular sanding sheets designed for use with oscillating multi-tools and detail sanders. These sheets feature a pre-cut hole pattern for efficient dust extraction during material removal and surface preparation.

Product Overview

Versatile Triangular Sanding Solution

This triangular sanding sheet is precision-engineered for use with oscillating multi-tools and detail sanders, providing exceptional performance in material removal and surface preparation. Featuring multiple pre-cut holes, it facilitates efficient dust extraction to maintain a clean workspace and prolong abrasive life. Its versatile design makes it an ideal choice for working on a variety of materials including wood, metal, and plastic.

Compatibility & Usage

Tool Compatibility

- Oscillating Multi-tools
- Detail Sanders

Compatible Materials

Wood, Metal, Plastic

Technical Specifications

Dust Extraction

Yes

Shape

Triangular
