

Trigger Sprayer with Stainless Steel Tank

This trigger sprayer is a versatile tool suitable for a variety of applications. Constructed from durable materials, it features a corrosion-resistant stainless steel tank and a clear, flexible hose for easy liquid delivery.

Product Overview

Professional Trigger Sprayer

This durable trigger sprayer features a high-quality stainless steel tank, engineered for superior corrosion resistance in demanding environments. It is equipped with a flexible hose and an efficient pump mechanism that ensures consistent liquid delivery and pressure generation. Designed with user comfort in mind, the ergonomic handle facilitates ease of operation during extended industrial, agricultural, or domestic applications.

Construction & Design

Tank Material	Stainless Steel
Hose	Clear, flexible hose
Design Features	Corrosion-Resistant, Ergonomic Handle, High-Efficiency Pump

Application

Suitable Sectors

- Agricultural
- Industrial
- Domestic
