

Triplex Mud Pump Piston Assembly

This triplex mud pump piston is made of premium materials. It is designed to be exchangeable with OEM products and meet or exceed API-7K standards.

Product Overview

High-Performance Mud Pump Piston Assembly

This triplex mud pump piston assembly is engineered for demanding oilfield drilling operations, ensuring optimal sealing and extended service life. The assembly features a durable construction with a resilient elastomer compound bonded to a robust metal core, providing reliable performance in extreme environments. Built to international quality standards, it serves as a fully interchangeable solution for standard industry equipment.

Technical Specifications

Available Types

- Urethane Bonded Pistons
- Replaceable Rubber Pistons

Temperature Variants

Regular Type • High Temperature Type

Standards Compliance

API-7K

Compatibility

OEM Interchangeability

Yes

Reference Model

7K-0448
