

Triplex Plunger High Pressure Pump

This high-pressure triplex plunger pump is designed for demanding cleaning applications. It features a durable brass manifold, ceramic plungers, and high-quality seals for extended service life.

Product Overview

High-Performance Triplex Plunger Pump

The 3WZ-1600A is a high-pressure triplex plunger pump engineered for demanding industrial and commercial cleaning applications. It features a durable brass manifold, ceramic plungers, and high-quality seals designed to ensure extended service life and reliable performance in harsh environments. The unit includes an integrated unloader valve and chemical injector, offering versatile and consistent high-pressure cleaning capabilities.

Technical Specifications

Integrated Components

- Unloader Valve
- Chemical Injector

Application Suitability

Industrial Cleaning • Commercial Pressure Washing

Pump Type

Triplex Plunger Pump

Key Materials

Brass Manifold, Ceramic Plungers
