

Truck Cab Lock and Cable Assembly

This is a complete cab lock and cable assembly designed for heavy-duty trucks. The kit includes a robust locking mechanism, a durable control lever, a high-strength cable, and all necessary mounting hardware.

Overview

Heavy-Duty Cab Lock and Cable Assembly

This complete cab lock and cable assembly is engineered specifically for heavy-duty commercial vehicles. The kit includes a robust locking mechanism, a durable control lever, and a high-strength cable designed for smooth and reliable operation. Built with high-quality steel and protective coatings, this assembly ensures long-lasting durability and superior resistance to corrosion in demanding road environments.

Technical Specifications

Included Components

- Locking mechanism
- Control lever
- High-strength cable
- Mounting hardware

Material	High-quality steel with corrosion-resistant coating
Application	Heavy-Duty Truck, Commercial Vehicle, Replacement Part

Performance

Key Features

Corrosion Resistant • High-Strength • Smooth Operation • Durable Construction
