

Truck Disc Brake Caliper Guide Repair Kit for PAN17 Calipers

This kit is suitable for Wabco Pan17 calipers and contains guides and seals. It provides essential components for repairing and maintaining disc brake calipers in truck applications.

Product Overview

Comprehensive PAN17 Brake Restoration

This truck disc brake caliper guide repair kit is specifically engineered for the PAN17 series, providing all essential components required for a complete overhaul. Designed for single-piston configurations, the set includes high-quality guide pins, seals, and dust boots to restore braking precision. This kit offers a reliable and cost-effective maintenance solution to extend the service life of heavy-duty vehicle brake systems.
