

Truck Engine Oil Seal

This is an oil seal designed for truck engines. It prevents oil leakage, ensuring optimal engine performance and longevity.

Product Overview

High-Performance Truck Engine Oil Seal

This premium engine oil seal is engineered for heavy-duty truck applications, ensuring optimal sealing performance and leakage prevention under demanding operating conditions. Designed with high-grade materials, it offers exceptional resistance to heat, oil degradation, and wear. It is an essential component for maintaining engine integrity, extending service intervals, and ensuring operational reliability in professional transport environments.

Technical Details

Compatible Vehicle Type	Heavy Duty Truck, Commercial Vehicle
Primary Function	Engine oil containment and contaminant exclusion

Performance Features

Material Characteristics

- High thermal resistance
- Excellent oil compatibility
- Abrasion resistant
- Flexible lip design

Compliance

Certification

ISO 9001 • Quality Tested
