

Truck-Mounted Concrete Pump

This truck-mounted concrete pump is available with boom lengths ranging from 37m to 48m. It is designed for efficient and reliable concrete delivery on construction sites.

Product Overview

High-Performance Concrete Delivery

This truck-mounted concrete pump is designed for large-scale construction projects requiring efficient and reliable concrete placement. It features a multi-section boom for extended reach and a robust pumping system for high-volume delivery. Available in multiple boom lengths, it offers versatility for various job site requirements.

Performance Metrics

Theoretical Output

125 m³/h
Max Output

Theoretical Pumping Pressure

8.5 Mpa
Max Pressure

Technical Specifications

Pump Carry Capacity Index	586 Mpa.m ³ /h
Hopper Volume	700 L

Configuration

Model Variants

- HDT5281THB-37/4
- HDT5291THB-37/4

Available Boom Lengths	37m, 39m, 42m, 45m, 48m
------------------------	-------------------------

Comparison Data

Model Parameter Comparison

Parameter	HDT5281THB-37/4	HDT5291THB-37/4
Output (m3/h)	125	125
Pressure (Mpa)	8.5	8.5
Capacity Index	586	586
Hopper Volume (L)	700	700
