

Truck-Mounted Telescopic Boom Cleaning Machine

This truck-mounted cleaning machine features a telescopic boom with a hook. The machine is equipped with a cabin for the operator and appears to have a hydraulic system for operating the boom.

Product Overview

Industrial Cleaning Solution

This truck-mounted cleaning machine features a robust telescopic boom system designed for high-reach industrial cleaning applications. Built on a standard truck chassis, it offers excellent mobility and is equipped with a dedicated operator cabin for precise control. The integrated hydraulic system ensures efficient operation of the boom, making it a reliable choice for professional cleaning tasks.
