

Truck Wheel Bolt with Nut

This wheel bolt with nut is designed for European trucks. It ensures secure wheel attachment and reliable performance.

Product Overview

Professional-grade wheel bolt and nut assembly designed for heavy-duty European truck applications.

High-Strength Wheel Bolt and Nut Assembly

This high-strength wheel bolt and nut assembly is precision-engineered specifically for European truck applications. Manufactured from premium 40Cr or 35CrMo steel, these components undergo heat treatment to ensure superior durability and wear resistance in heavy-duty environments. The assembly meets rigorous quality standards to provide optimal clamping force, secure attachment, and enhanced vehicle safety.

Technical Specifications

Precision-engineered wheel bolt and nut set with durable, corrosion-resistant coating.

Tensile Strength

1100 N/mm²

Tensile Strength

Surface Finish

- Phosphate (Grey/Black)
- Zinc Plated
- Dacromet

Size Specifications

22mm x 1.5mm x 110mm

Material Composition

40Cr, 35CrMo

Compliance

Quality Standards

TS16949 • ISO 9001

Logistics and Supply

Supply Capability

10,000 Metric Tons per Month

Packaging Standard

10 pcs per inner box, 40 inner boxes per carton, wooden case or palletized
