Product Overview

High-Efficiency Air Purification

This household air purifier is engineered to significantly improve indoor air quality by removing dust, pollen, smoke, and other common airborne allergens. Featuring a multi-stage filtration system, it combines a pre-filter, a True HEPA filter, and an activated carbon filter to capture 99.97% of particles as small as 0.3 microns. Its cylindrical design ensures 360-degree air intake, making it an efficient and quiet solution for bedrooms, living rooms, and offices.

Filtration System
