

# Trunnion Mounted Ball Valve

This ball valve features a blow-out proof stem and fire-safe tested design. It offers secure line flow locking and optional double piston effect seat ring.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Trunnion Mounted Ball Valve

This high-performance trunnion mounted ball valve is engineered for critical service applications, offering exceptional durability and reliability in demanding industrial environments. The trunnion-supported ball design ensures enhanced stability, reduced operating torque, and tight shut-off performance even in high-pressure and high-volume scenarios. With advanced sealing technology and a robust construction, it provides leak-proof performance and an extended service life across diverse sectors including oil and gas, chemical processing, and water treatment.

## Technical Specifications

### Trim Materials

- A105+ENP
- 13Cr
- F304
- F316

Size Range	2 to 36 inches
Pressure Rating	150LB to 2500LB
Body Materials	Carbon Steel, Stainless Steel

## Configurations

### Available Operators

- Lever
- Gear
- Motor
- Pneumatic

End Connection Types	RF, RTJ, BW
----------------------	-------------

## Key Features

### Performance Advantages

**1**

Minimal Pressure Drop

**1**

Tight Shut-off Seal
