

Tube Flaring Tool

This tube flaring tool features axial spacing for accurate sizing. Its innovative clamping structure allows for convenient operation.

Product Overview

Precision Tube Flaring Solution

This tube flaring tool is a precision instrument designed for creating accurate and consistent flares on tubing. It features a robust construction with a smooth, ergonomic handle for comfortable operation, ensuring reliable connections in various applications. Its compact design allows for easy storage and portability, making it ideal for both on-site and workshop use.

Key Features

Design Highlights

- Axial spacing for accurate sizing
- Innovative patent clamping structure
- Ergonomic, user-friendly design
- Self-centering yoke mechanism for precise alignment

Technical Specifications

Performance Benefits

Leak Prevention • Joint Integrity • Consistent Flaring

Compatibility

Refrigeration Tubing, HVAC Tubing
