

Turbo Segmented Diamond Saw Blade

This diamond blade features a segmented rim for efficient material removal and cooling. It is suitable for angle grinders and circular saws, providing fast cuts in concrete, stone, and brick.

Product Overview

Turbo Segmented Diamond Saw Blade

This turbo segmented diamond blade is engineered for high-performance cutting across a wide range of masonry materials, including concrete, stone, and brick. The segmented rim design optimizes material removal and improves cooling efficiency during high-speed operation. It is an essential tool for professional construction tasks, providing clean and fast cutting results with hand-held power tools.

Technical Specifications

Blade Diameter	105 mm
Maximum Speed	14500 RPM
Max Peripheral Speed	80 m/s

Compatibility & Usage

Suitable Materials

- Concrete
- Stone
- Brick
- Masonry

Compatible Tools	Angle Grinder, Circular Saw
------------------	-----------------------------

Product Features

Key Features

Turbo Segmented Rim • Efficient Cooling • Fast Cutting • Clean Finish
