

Turbocharger Intercooler

This intercooler cools the air compressed by a turbocharger, increasing air density to the engine. The result is more efficient combustion and greater power output.

Product Overview

High-Performance Turbocharger Intercooler

This high-performance intercooler is engineered to enhance engine efficiency by effectively cooling compressed intake air. Designed with a robust core for optimal heat dissipation and minimal pressure drop, it ensures consistent performance even under high boost pressures. The unit is built for durability and reliable thermal management, making it an ideal upgrade for turbocharged vehicle applications.

Technical Specifications

Core Dimensions	650 x 154 mm
Water Tank Dimensions	77 x 77 x 153 mm

Compatibility & Identification

Nissens Part Number	56121
Colarako ID	COLARAKO
