

# Turbocharger Shaft Wheel

This turbocharger shaft wheel is designed for optimal airflow and durability. The precision-balanced wheel minimizes vibration and maximizes efficiency.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Turbocharger Shaft Wheel

This high-performance shaft wheel is precision-engineered for GTX5533R turbocharger applications. Designed with advanced blade geometry, it optimizes airflow and boosts engine efficiency, ensuring reliability under extreme temperatures and pressures. It serves as an ideal component for upgrading or replacing worn turbocharger parts to achieve maximum power output.

## Technical Specifications

Model	GTX5533R
Blade Count	10

## Part Identification

### Part Numbers

Reference Type	Part Number
Internal P/N	G5520001
Turbo P/N	851285

## Compatibility

OEM Compatibility	Garrett
