

# Turkish Coffee Pot Cezve Ibrik

This is a small, red, metal Turkish coffee pot, also known as a cezve or ibrik. It is traditionally used for brewing Turkish coffee by simmering finely ground coffee beans in water, often with sugar, until a foam forms on top.

## Product Overview

### Traditional Turkish Coffee Pot

This traditional Turkish coffee pot, known as a cezve or ibrik, is designed for the authentic preparation of Turkish coffee. Featuring a durable metal construction with a distinctive red finish, it is engineered for simmering finely ground coffee beans to achieve the perfect foam. Its ergonomic handle ensures safe and comfortable handling during the brewing process.
