Product Overview

Industrial Twin Shaft Mixing Technology

This high-performance twin-shaft industrial mixer is engineered for rapid and highly homogeneous blending of materials. Designed with precision, it utilizes a sophisticated blade layout that ensures excellent mixing efficiency and durability. The robust construction and reliable gearbox system make it an ideal choice for demanding industrial applications requiring consistent output.

Technical Specifications

Standard Equipment

- Automatic greasing system
- Manual emergency opening gate

Gearbox Design

Italy design

Available Materials

Concrete, Mortar, Asphalt

Operational Safety & Options

Skip Version

Yes

Safety Equipment

Anti-falling device, Emergency gate

Construction

Custom Options

Heavy-duty anti-wear material
