

# Twin Tub Washing Machine

This twin tub washing machine features separate tubs for washing and spin-drying, allowing for simultaneous operation and reduced washing time. It is equipped with adjustable timers for washing and spinning, providing flexibility to customize the washing cycle.

## Overview

### High-Capacity Twin Tub Efficiency

This twin tub washing machine is engineered for high-volume laundry needs with a robust 12.8kg washing capacity and a 7kg spin-drying capacity. By featuring separate tubs for simultaneous washing and spinning, this unit significantly reduces total cycle time for busy operations. Its intuitive controls allow for precise customization of wash cycles, making it a durable and efficient solution for professional-grade laundry management.
