

Twin Tub Washing Machine

This twin tub washing machine has separate wash and spin cycles. It features adjustable wash and spin timers, as well as water level selection, for efficient cleaning.

Overview

Efficiency and Performance

This twin tub washing machine offers a robust solution for efficient garment cleaning with separate wash and spin cycles. Designed for optimal performance, the unit features independent timers for both washing and spinning, alongside precise water level control. Its intuitive design ensures a thorough clean, making it a reliable addition to any laundry environment.
