

Twin Tub Washing Machine

This twin tub washing machine has separate tubs for washing and spin-drying. It is a non-automatic appliance requiring manual filling and draining of water.

Product Overview

Compact Twin Tub Efficiency

The XCPB78-801S is a reliable, non-automatic twin tub washing machine designed for efficient household laundry management. Featuring separate tubs for washing and spin-drying, it provides manual control over your laundry process to ensure optimal care for your garments. Its compact design makes it an ideal solution for spaces where flexibility and manual intervention are preferred.
