

# Twin Tub Washing Machine

This twin tub washing machine has distinct compartments for washing and spin-drying. Its compact design is suitable for small spaces and it includes rotary controls and transparent lids.

## Product Overview

### Compact Twin Tub Washing Solution

This twin tub washing machine offers a space-saving design with independent compartments for washing and spin-drying. Engineered for efficiency, it promotes both water and energy savings while providing a user-friendly experience with intuitive rotary controls. The transparent lid design allows for easy monitoring of the laundry process, making it an ideal choice for compact living environments.

## Design and Build

### Key Design Features

- Dual compartment configuration
- Rotary dial control interface
- Transparent observation lids
- Integrated drainage hose system
- Reinforced stable base

### Sustainability Attributes

Energy-efficient, Water-saving, Antibacterial design, Eco-friendly

## Operational Metrics

### Core Functions

Function	Control Method
Washing Cycle	Rotary
Spin-drying Cycle	Rotary
