Product Overview

Efficient Laundry Performance

This twin tub washing machine offers a robust and user-friendly solution for diverse laundry needs, featuring capacities ranging from 5kg to 15kg. Engineered with high-performance motors and a Super Air Spin Max system, it ensures faster drying and superior cleaning efficiency in a compact footprint. With additional protective features like anti-rust coating and rat guards, this machine is built to withstand intensive daily operation while maintaining energy efficiency.

Technical Specifications

Model Number	XPB130-2009SK
Washing Capacity	13 kg
Spin Capacity	6.5 kg
Packing Dimensions	995*565*1030 mm
Loading Capacity	120

Key Features

Core Advantages

- Super Air Spin Max high RPM motor
- Anti-rust durable construction
- Rat guard protection for wiring
- Energy efficient design
- Easy clean special coating

Operational Benefits

Simple Plug and Play, Space Saving, Cost Effective
