

Twin Tub Washing Machine with Separate Wash and Spin Tubs

This twin tub washing machine features separate tubs for washing and spin-drying. It includes multiple control knobs for adjusting wash settings and spin speed.

Product Overview

Efficient Twin Tub Laundry Solution

The XPB100-98S-D Twin Tub Washing Machine is designed for high-capacity laundry needs with separate, dedicated tubs for washing and spin-drying. Its double-layer construction ensures durability, while the flexible power compatibility makes it suitable for various international electrical standards. This unit provides a robust solution for environments requiring frequent, high-volume washing.
