

Twin Tub Washing Machine with Spin Dryer

This twin tub washing machine has separate washing and spin-drying compartments. It features timer controls and a durable plastic construction.

Product Overview

Compact Twin Tub Efficiency

This twin tub washing machine offers a high-efficiency solution for small-space living, featuring distinct compartments for washing and spin-drying. Its compact design is specifically engineered for apartments, dormitories, and recreational vehicles. Built with durable plastic and intuitive timer-based controls, it provides a simple and reliable laundry experience.
