

Twin-Wheel Metal Tray Wheelbarrow

This robust two-wheeled wheelbarrow is designed for heavy-duty use in construction, landscaping, and gardening. It features a durable metal tray with reinforced edges and a substantial load capacity.

Product Overview

Heavy-Duty Twin-Wheel Design

This robust two-wheeled wheelbarrow is engineered for demanding tasks in construction, landscaping, and gardening environments. Its twin-wheel configuration significantly enhances stability and maneuverability over rough terrain, effectively minimizing the risk of tipping during transport. Built with a durable metal tray and a high-strength tubular steel frame, this unit is designed to withstand heavy loads of soil, gravel, concrete, and debris.

Construction & Materials

Frame Material	Tubular Steel
Tray Construction	Metal with reinforced edges

Performance & Mobility

Wheel Type	Pneumatic tires
Number of Wheels	2

Key Features

Usability Features

- Ergonomic handle design
- Enhanced stability twin-wheel system
- Shock-absorbing pneumatic tires
- Reinforced tray edges

Ideal Applications	Construction, Landscaping, Gardening, Professional Use, DIY
