Product Overview

High-Efficiency Cooking Solution

This two-burner gas stove is engineered for residential use, combining a sleek black tempered glass aesthetic with robust performance. It features high-efficiency burners that provide rapid and even heat distribution for diverse cooking needs. With an integrated pulse ignition system and precise flame control, this unit is designed to meet strict safety and efficiency standards for the modern kitchen.

Technical Specifications

Model Number	JZT-Q1701(B)-AI
Rated Heat Input	5 kW
Thermal Efficiency	65 %
Compatible Gas Type	NG
Ignition Type	Pulse ignition

Physical Attributes

Dimensions (L x W x H)	800 x 450 x 175 mm
Base Material	Aluminium alloy
Surface Finish	Black tempered glass

Compliance and Ratings

Energy Efficiency Level	Level 1
Safety Features	Flame Failure Device (FFD), Pulse Ignition
