

Two-Burner Stainless Steel Gas Cooktop

This gas cooktop features two burners for efficient cooking. It has a stainless steel finish and front-mounted control knobs.

Product Overview

Professional Two-Burner Gas Cooktop

This high-performance two-burner gas cooktop is designed for durability and efficiency in professional kitchen environments. Constructed with a robust stainless steel panel and heavy-duty cast iron burners, it ensures long-lasting reliability. The inclusion of automatic piezoelectric ignition and a convenient water tray simplifies daily operation and maintenance.
