

Two-Burner Stainless Steel Gas Cooktop

This gas cooktop features a stainless steel surface with two high-efficiency burners. It includes durable cast iron grates for stability and even heat distribution.

Product Overview

Professional Two-Burner Gas Cooktop

This high-efficiency two-burner gas cooktop is designed for durability and performance in busy kitchen environments. Featuring a robust stainless steel surface and heavy-duty cast iron grates, it ensures stability and even heat distribution for consistent cooking results. The front-mounted control knobs allow for precise flame adjustment, making it a practical and sleek solution for professional culinary spaces.
