

Two-Door Compact Refrigerator

This refrigerator is designed for household use. It features a two-door configuration with a separate freezer compartment and standard refrigeration technology.

Overview

Compact Cooling Solution

This two-door compact refrigerator is designed for efficient food preservation in smaller spaces. Featuring a distinct silver-colored frame with purple door panels, it offers a stylish yet functional aesthetic. The unit includes a separate freezer compartment, making it an ideal choice for compact kitchens or areas where space optimization is essential.
