

Two-Door Refrigerator with LED Lighting

This refrigerator features a two-door design with a separate freezer compartment and offers ample storage space. It is equipped with advanced cooling technology and includes an electronic control panel for easy temperature adjustment.

Overview

Advanced Cooling and Preservation

This two-door refrigerator features integrated 361° anti-bacteria technology, utilizing ultraviolet, ozone, titanium photocatalyst, and ion sterilization to ensure food safety and freshness. Designed for efficiency, it incorporates computerized temperature control with 1-degree precision and energy-saving white LED lighting. The unit combines a modern aesthetic with robust performance to cater to the needs of small to medium-sized households.

Technical Specifications

Model Specifications

Feature	BCD-196AEG2A	BCD-206AEG2A
Net Volume (L)	196	206
Freezer Volume (L)	68	68
Rated Input Power (W)	100	100
Energy Consumption (Kw.h/24h)	0.39	0.43

Star Rating	3
-------------	---

Key Features

Sterilization Technologies	Ultraviolet, Ozone, Titanium Photocatalyst, Active Ion, Anion
Lighting System	White Direct Current LED
Control System	Computerized temperature control with 1°C precision
