

Two-Door Top-Freezer Refrigerator

This two-door refrigerator is designed with a top freezer and a bottom refrigerator compartment. It provides cooling and freezing capabilities for household food storage.

Product Overview

Efficient Two-Door Storage

This two-door top-freezer refrigerator is engineered to provide reliable cooling and freezing performance for professional and domestic storage environments. Its classic upright design incorporates versatile interior organization through adjustable shelving and door bins. The aesthetically pleasing light blue finish with a durable silver frame ensures it fits seamlessly into a wide range of interior settings.
