

Two-Door Top-Freezer Refrigerator

This two-door top-freezer refrigerator is designed for energy saving and is suitable for various conditions. It features high-efficiency refrigeration and anti-bacterial components.

Product Overview

Efficient Cooling Solution

This two-door refrigerator combines high-efficiency refrigeration with an energy-saving design, making it suitable for a variety of conditions. Featuring a robust wire tube evaporator and anti-bacterial materials for both the inner tank and handle, it ensures a hygienic storage environment for your goods. Its compact and organized internal layout includes transparent drawers, providing convenience and durability for everyday use.

Technical Specifications

Key Performance Metrics

196 L Total Net Volume	68 L Freezer Volume	100 W Rated Power

Energy Profile

- Energy Consumption: 0.56 Kw.h/24h
- Star Rating: 3

Features & Construction

High-efficiency wire tube evaporator ensures optimal refrigerant flow and durability.

Wire Tube Evaporator

The appliance is equipped with a specialized wire tube evaporator designed for enhanced refrigeration efficiency. This construction provides high structural weight capacity and ensures reliable thermal performance to maintain stable internal temperatures.

Core Features

Energy Saving, Fully Transparent Drawers, Anti-bacteria Materials, High-efficiency Refrigeration
