

Two-Door Top-Freezer Refrigerator

This two-door refrigerator is designed for efficient cooling and storage. It features a modern design with a metallic finish and a dark blue door panel.

Product Overview

Advanced Cooling Solutions

This two-door top-freezer refrigerator is engineered with sophisticated AI-driven cooling technology and multi-stage sterilization. It features four independent temperature control zones to maintain optimal freshness for everything from fresh fish to deep-frozen goods. With its energy-efficient design and smart touch-sensitive interface, it offers a reliable and high-performance storage solution for professional or residential environments.

Model Specifications

Feature	BCD-228GS/MS	BCD-248GS/MS
Net Volume (L)	228	248
Deep Freezing Volume (L)	48	76
Soft Freezer Volume (L)	24	24
Energy Consumption (Kw.h/24h)	0.6	0.66

Temperature Control

Freshness Temperature Zones

- Meat and fish: 3° to 9°C
- Slight freezing: -4° to -9°C
- Constant freezing: 0°C
- Deep freezing: -16° to -24°C

Advanced Technology

Intelligent Features

- 3 independent switch control
- Smart computerized control technology
- Touch-sensitive interface
- Intelligent automatic operation
- Intelligent lock
- Quick refrigeration and freeze
- Double-seal energy-saving design
- 8 AI display windows

Sterilization Technologies

Ultraviolet, Ozone, Titanium Photocatalyst, Active Ion, Anion
