

Two-Gang Light Switch with 13A Socket

This switch utilizes a pendulum structure, providing a light and smooth operational feel. It is capable of passing load tests for both fluorescent and self-ballasted lamps, with a service life of up to 40,000 cycles.

Product Overview

Versatile Electrical Solution

This combined unit integrates a two-gang light switch with a 13A British Standard socket, offering a space-saving design for indoor electrical installations. Engineered for reliability and safety, it is fully compliant with British Standard regulations. With a robust 10-year warranty, this unit provides a dependable and long-lasting solution for both residential and commercial lighting and power needs.
