

Two-Slice Stainless Steel Toaster

This two-slice toaster features a brushed stainless steel finish. It is equipped with multiple browning settings, illuminated buttons, a removable crumb tray, and a high-lift lever.

Product Overview

Versatile Breakfast Solution

This two-slice stainless steel toaster combines modern aesthetics with professional functionality. Designed for efficiency, it features precise browning control via a rotary dial and dedicated buttons for specialized tasks like reheating and defrosting. Its thoughtful design includes a high-lift lever for easy access to smaller items and a removable tray to ensure effortless maintenance.
